Which harmonised standard for which industrial product (our assessment)

Machinery and industrial automation products, as of 28 Sep 2026; our own assessment, not legal advice.

			Harmonised standards for the essential cybersecurity requirements (Annex I CRA)		
Product	**Product type**	**Module A possible?**	**Annex I Part I**	**Annex I Part II**	**Presumption of conformity**
Smartphone	default	yes	EN 40000-1-2, EN 40000-1-4 citation not foreseen	EN 40000-1-3 citation foreseen	no
Machinery (CRA horizontals)	default	yes	EN 40000-1-2, EN 40000-1-4 citation not foreseen	EN 40000-1-3 citation foreseen	no
Machinery (MR/CRA standards)	default	yes	EN 50742 Ed. 2 with Annex ZB, not started work not started	EN 40000-1-3 citation foreseen	to be confirmed
Machinery (CRA verticals)	default	yes	EN IEC 62443-3-3 (not started), EN IEC 62443-4-1 work not started	EN 40000-1-3 citation foreseen	to be confirmed
Machinery (CRA verticals)	default	yes	EN IEC 62443-4-2, EN IEC 62443-4-1 citation questioned	EN 40000-1-3 citation foreseen	no *
Industrial PLC	default	yes	EN IEC 62443-4-2, EN IEC 62443-4-1 citation questioned	EN 40000-1-3 citation foreseen	to be confirmed
Industrial linear motor	default	yes	EN IEC 62443-4-2, EN IEC 62443-4-1 citation questioned	EN 40000-1-3 citation foreseen	to be confirmed
Agricultural machinery (e.g. tractor)	default	yes	ISO 24882, Part I and II citation questioned		no (not in M/606)
Industrial network management system	**class I**	with cited harmonised standard	EN 50770-2 citation foreseen	EN 40000-1-3 citation foreseen	yes
Industrial physical network interfaces	**class I**	with cited harmonised standard	EN 50770-3 citation foreseen	EN 40000-1-3 citation foreseen	yes
Industrial VPN	**class I**	with cited harmonised standard	EN 50770-4 citation foreseen	EN 40000-1-3 citation foreseen	yes
Industrial router	**class I**	with cited harmonised standard	EN 50770-5 citation foreseen	EN 40000-1-3 citation foreseen	yes
Industrial SIEM	**class I**	with cited harmonised standard	EN 50770-6 citation foreseen	EN 40000-1-3 citation foreseen	yes
Industrial firewalls	**class II**	no (third party)	EN 50770-1-1 citation foreseen	EN 40000-1-3 citation foreseen	yes, with notified body
Industrial IDS, IPS	**class II**	no (third party)	EN 50770-1-2 citation foreseen	EN 40000-1-3 citation foreseen	yes, with notified body

Citation in the Official Journal not foreseen: no presumption of conformity
Work not yet started
Citation in the Official Journal intended, but questioned and not confirmed
Citation in the Official Journal foreseen: presumption of conformity

Presumption of conformity: yes · to be confirmed · no

IEC 62443: the European versions EN IEC 62443-3-3, -4-1 and -4-2 with their CENELEC amendments under M/606, not the IEC editions.
PoC TBC: presumption of conformity to be confirmed. * (machinery, CRA verticals): intended use of the product and scope of the standard do not match.
Class II: presumption where the notified body assesses against the harmonised standards.
ETSI standards are not included.
